

Are You at Risk for Periodontal Disease?

One out of every two American adults aged 30 and over has periodontal disease, according to recent findings from the Centers for Disease Control and Prevention (CDC).* Periodontal disease is a chronic inflammatory disease that affects the gum tissue and other structures supporting the teeth. Early symptoms may include bleeding gums, inflammation and chronic bad breath. For more details, consult your dental professional today.

Ask your dental professional how Dental Herb Company products can help.

Dental Herb Company products are available through dental offices, and are not sold in retail stores.
